

# Come along on Paloma's journey!

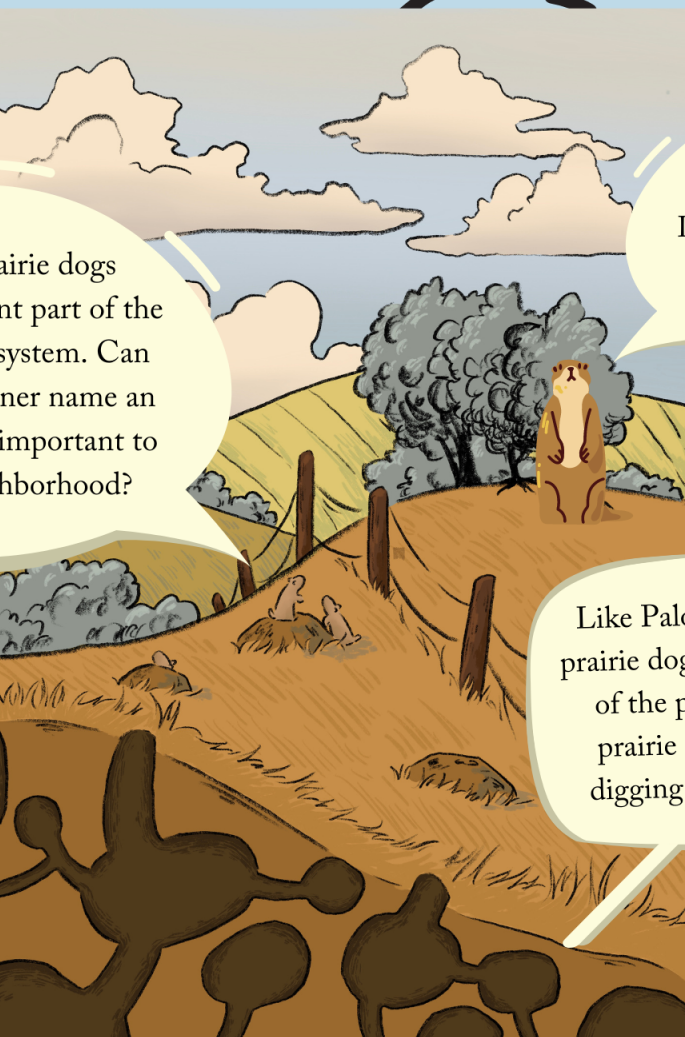

1

Mexican prairie dogs are an important part of the grasslands ecosystem. Can you and a partner name an animal that is important to YOUR neighborhood?

Welcome to El Llano de la Soledad!  
The Lonely Plain!

2

Like Paloma's mom says, prairie dogs are the engineers of the prairie! Act like a prairie dog and practice digging with your hands.

## Moving to La Zona Rosa!

3

It's a long trip from El Llano de la Soledad to La Zona Rosa in Mexico City. 10.5 hours of driving! Grab a partner or group and take a journey around your classroom just like Paloma!

4

Sushi LOVES fusion. And Arturo's favorite snack is Takis. What's your favorite food? Do you know where it comes from? Go around the room and share!

## Home, Sweet Home!

5

Paloma, Sushi, and the prairie dog town bark to keep their home safe. On the count of three, work together and bark as loud as you can!

The prairie is a Protected Natural Area in Mexico. In the U.S., we have protected National Parks. Why do you think it's important to protect the land?

Thank you for coming along on Paloma's journey! We hope you enjoy the show!
